Hard Skill

- Computer Programming: C++, R, SQL, Python, Pandas
- MS Office (Word, Excel, Power BI)
- Data visualization and Data transformation.
- ML (Supervised Learning)

Soft Skill

- Observation
- Decision Making
- Communication
- Statistics

Education Background

- **King Mongkut's University of Technology North Bangkok.**
Bachelor of Science in Technical Education. Electrical Engineering.
Completed in 2013 GPA: 2.95
- **Samutprakan Technical College**
Diploma of Vocational Education in Electronics. Technical Computer
Completed in 2009 GPA: 3.11

Objective

I am seeking a challenging role with a dynamic and innovative organization that values data-driven decision-making. I am looking for an opportunity to apply my skills in data analysis, problem-solving, and communication to support the organization's goals and contribute to its continued growth and success.

Work Experience

Cal-Comp Electronics

QA Test Analyst 2013 - 2019

- Perform advanced data analysis to support quality control and product development, collaborating with cross-functional teams to resolve issues and identify trends. Develop and maintain data analytics tools and dashboards for continuous improvement, manage samples and stay current on data analysis techniques.

Data Analyst (Freelance) 2022 - Present

- Collect and process large datasets from multiple sources, clean and preprocess data to ensure accuracy. Develop statistical models, build, train and deploy machine learning models to solve business problems. Create data visualizations, dashboards, and reports to communicate insights, collaborate with clients to develop data products, and conduct ad hoc analyses. Stay current with emerging trends in data analysis and machine learning.

Portfolio
